

My only comment on Mr. Beauregard's petition would be:

As this has become such a heated subject in the amateur radio community I would like to see this matter settled once and for all. Whatever decision the FCC may come to it should include all amateur radio classifications. The code should be either dropped as testing requirement or left in place as is. Not doing this invites this issue to come up again in the future. Let us be done with this issue and move on. Thank You.
